POSTAL REGULATORY
COMMISSION
U.S. DEPARTMENT OF JUSTICE

Postal Regulatory Commission
901 New York Avenue NW #200
Washington DC 20001

Dear Commissioners,

I understand you are considering cutbacks in the postal system. I wish to protest the elimination of Post Offices, mailboxes, and cutbacks in delivery.

Clearly, there is pressure to bend to the will of private companies who seek to skim off the most lucrative business.

But your job is to ensure service to the people, and the people are not just businesses and privileged persons in fancy neighborhoods.

Do not side with those who would dismiss the value and promise of all people. Do not create "mail deserts."

Postal workers are part of the fabric of our lives. Their presence helps build community, like teachers, shopkeepers, and librarians. They are models of "normal" in rural areas and inner cities.

Seniors and the home-bound need the postal service. Underprivileged children appreciate models of dedication and the hope of opportunities to serve in well-paying jobs. Invest in technology. Offer opportunities for personal growth.

Postal workers build community.
Treat them well,

June Johnson
